# AGENDA

To understand the demography of Human Resource before launching production

AND

Employee Structure of the Firm

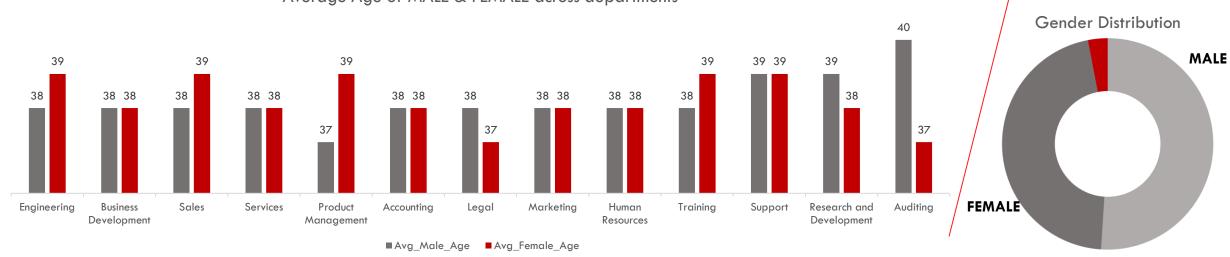

### Gender Distribution Across Departments

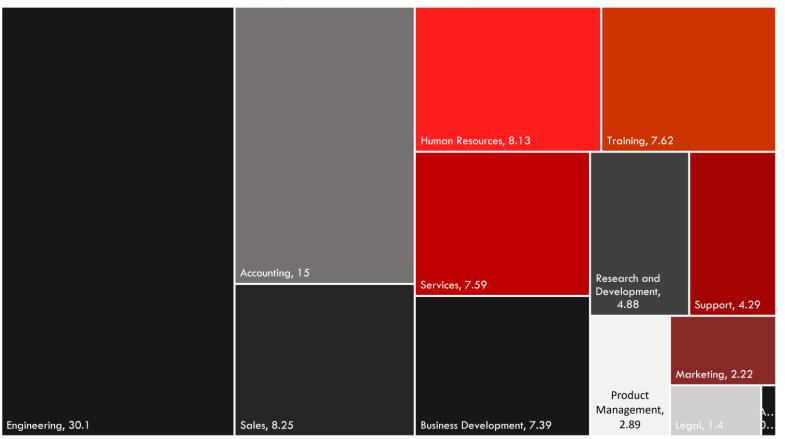

## Employee Distribution across Departments

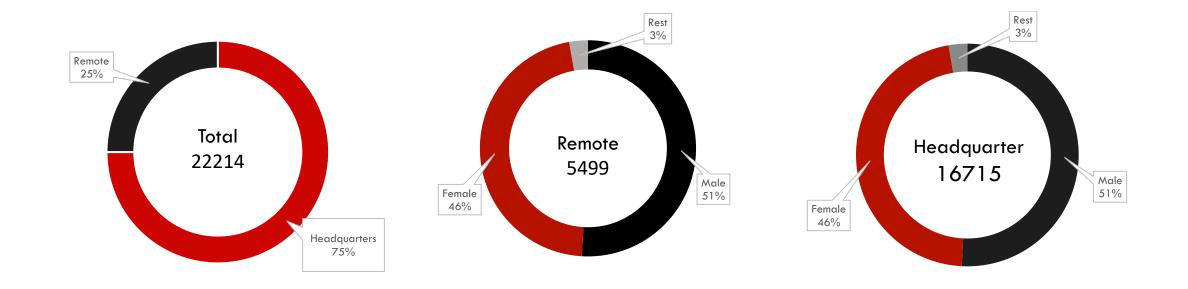

## **Employee Demography**

Ohio	18025
Pennsylvania	1115
Illinois	868
Indiana	700
Michigan	673
Kentucky	451
Wisconsin	382

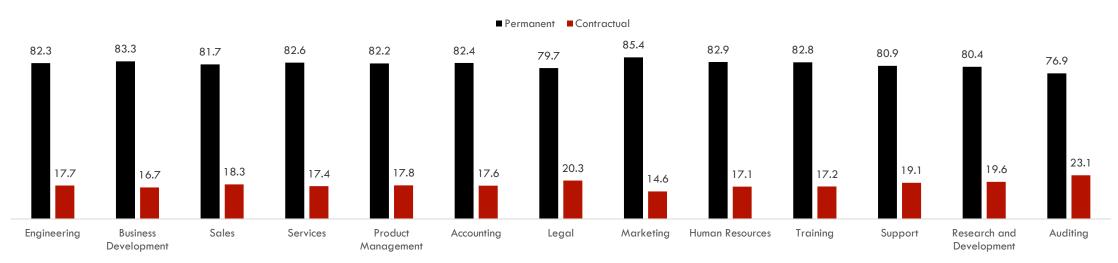

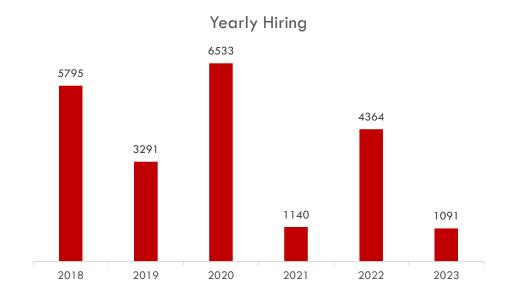

#### PERMANENT AND CONTRACTUAL EMPLOYEES ACROSS DEPARTMENTS

DURING THE 2021 AS THE GRAPHS SHOWS
1140 HIRED THERE WAS SIGNIFICANT
NUMBER(2678) OF HIRINGS PUT TO HOLD AND
LATER DISMISSED DUE COVID-19 PANDEMIC

## AREAS OF FOCUS

- Nearly 20% of Employees in the engineering department is above 50 and as company is looking forward to mass production the production environment could dangerous for seniors.
- During the initial days the software engineers were needed for system design and optimization and as company would be more focusing on production, the production staff should be increased so that it does not bottlenecks production, the company may have to discontinue employees related to software developments on basis of performance
